1. For the better conduct of operations of the Democratic Army and to increase its chances for military successes, the Cominform has sent one of its higher military staff members who was accompanied by other members. These persons now compose a klination which has assumed the direction of the Democratic Army Staff. This klination will direct from now on all the plans of the Democratic Army, whether they be offensive or defensive, and will see to their proper execution. Thus the Democratic Army will be a match in plans and operations for the Government Forces with their foreign military missions. This will also prevent each kapetanios from doing what he feels like and thus not accomplishing his purpose, and will avoid serious losses by systematic planning.
2. The leaders of the Democratic Army are expending tremendous efforts to gain large support in the rear of the Government Forces, i.e., in the Peloponnesus. The aim of these Antartes is to organize an attack on one of the large and important cities which the Athens Government has announced as having been cleared of Antartes. This attack should happen very soon. In connection with this the KKE organizations in Athens are taking special measures (a.g., they are collecting intelligence information on the Government forces in each city and their movements, et cetera.).
3. It is expected that there will be large scale sabotage in various cities of the country and in Athens (i.e., where the Democratic Army cannot act). This sabotage will consist in placing time-bombs in public establishments and public works projects and also in causing fires in them.
4. Regarding this the Communists are most secretive and conspiratorial. They are making every effort to carry out their program, especially insofar as obtaining suitable personnel is concerned. The KKE leaders' purpose in this is not only to aid the Democratic Army, but also to lower the morale of the Nationalists in the cities. KKE members in Athens have been ordered to pass this on to other party members in a discreet manner (a thing which they have already begun to do).
